

AUTODESK® PRODUCT DESIGN & MANUFACTURING COLLECTION

From engineering to production, this collection has all the professional-grade tools needed to help your entire team carry out their best work.

Your best work. Our best Inventor.

Everything you need

Run your entire product development process with an end-to-end solution that includes 2D & 3D design, advanced simulation, 2.5 - 5-axis CAM, factory layout, and more.

The power of workflows

Center all your work around your Inventor data with integrated CAD, CAE, and CAM. Connect seamlessly with specialized applications to create a complete product definition.

Now, and into the future

Access the latest capabilities as soon as they're available; whether it's continual enhancements to the products you use today or incorporating new, cloud-based technologies like Fusion 360 into your workflow.

The Product Design and Manufacturing Collection includes key products such as **Inventor Professional, AutoCAD, Nastran In-CAD and HSM** in addition to other software included. Go to www.autodesk.com/productdesign to see the full list of products included in the Product Design & Manufacturing Collection.

Executive

Driving better outcomes

Get more for your money

Take advantage of significant cost savings when purchasing multiple Autodesk software solutions as part of a collection.

Support your business today and into the future

Stay ahead of changing business needs with access to a wide selection of the most essential Autodesk software used in your industry – while enjoying a steady stream of new releases and product enhancements for improved workflows.

Manage operational costs more effectively

Reduce operational costs (IT and procurement spend) by standardizing on a collection of technology flexible enough to suit the needs of a majority of your users.

IT Manager

Smarter software management

Simplify software management

Streamline deployment and software management with a standardized collection of Autodesk products and services.

Streamline the procurement process

Eliminate additional paperwork and unnecessary procurement cycles by selecting a collection that includes all the technology your users will need – now and in the future.

Optimize IT spend

Take advantage of significant cost savings when purchasing multiple Autodesk software solutions as part of a collection – giving your users access to more technology while reducing IT costs.
