

AUTODESK® SUBSCRIPTION

Smart. Flexible. Powerful.

New Autodesk Subscription options power the way you work.

Autodesk® Subscription offers the most convenient, modern, and flexible way to purchase and access the software and services that you need to help grow your business. With more purchasing options than ever before, you can choose the plan that best fits your current project needs and budget. Autodesk Subscription puts software, services, and support at your command to accelerate your entire workflow, now and into the future.

Autodesk Subscription has expanded and now encompasses all of the Subscription offerings provided by Autodesk, including Maintenance Subscription, Desktop Subscription, and Cloud Service Subscription.

No matter which Subscription offering you choose, you'll benefit from access to the latest software releases or services, select Autodesk® 360 cloud services, flexible licensing rights, and technical support.

AUTODESK® MAINTENANCE SUBSCRIPTION

The smart choice for the best value

Maintenance Subscription is available to help you effectively maintain your perpetual license of Autodesk software. Through immediate access to the latest Autodesk software releases, you can increase productivity by utilizing the newest technologies and time-saving features. Staying current with Maintenance Subscription lowers your upgrade costs, helping you maintain a predictable software budget. It's the best and most economical way to stay ahead of your competition.

AUTODESK® DESKTOP SUBSCRIPTION

The flexible choice for ultimate freedom

With Desktop Subscription, you can license Autodesk software on a short term basis to meet a variety of business and budget considerations, such as taking on finite projects or hiring temporary staff. Choose from monthly, quarterly, and annual options for using Autodesk Design and Creation Suites software and select software products. Desktop Subscription gives you the flexibility to manage costs without an up-front license investment or long-term commitment.

AUTODESK® CLOUD SERVICE SUBSCRIPTION

The powerful choice for cloud workflows

Extend work from the desktop into the cloud, simplify collaboration and streamline workflows through a broad selection of cloud-based services. Access to virtually infinite cloud computing power can significantly reduce visualization and simulation processing times, and frees up desktop resources for greater productivity and better results.

Autodesk Subscription—it's pretty much a no brainer.

Woolpert

More options than ever before.

Maintenance Subscription

Features and Benefits

Maintenance Subscription is the most cost effective way to maintain and maximize your long-term investment in Autodesk software and related services.

Included are the following features and benefits:

- Access to the latest software releases so you're always up-to-date, giving you a competitive edge.
- Flexible licensing rights so you have the tools you need where you need them.
- Autodesk® 360 cloud benefits to help you increase mobility, improve collaboration, and optimize designs.
- Technical support for quick resolution of issues so you stay productive.

Desktop Subscription

Features and Benefits

Desktop Subscriptions offers subscribers the choice of monthly, quarterly, and annual options for using Autodesk Design and Creation Suites software and select software products.

You'll benefit from the following:

- Access to the latest software releases, select Autodesk® 360 cloud services, and technical support.
- Low cost of entry so you can manage costs without an up-front license investment or long-term commitment.
- It's easy to scale up and down as your short-term project and staffing needs change.
- Increased functionality with less risk.

Cloud Service Subscription

Features and Benefits

Cloud Service Subscription helps you extend work from the desktop into the cloud.

Included are the following features and benefits:

- Virtually infinite cloud computing power to help you run complex and resource intensive tasks without tying up your desktop—bypassing the need to invest in expensive, specialized hardware.
- The ability to collaborate with extended teams in the cloud in real time from your office or mobile device.
- Access to your project files anytime, anywhere—from web and mobile devices—and streamline workflows throughout the project lifecycle.
- Access to the latest services, flexible licensing rights, and technical support.
